

*What is it about?*

## Maritime Clusters Network for Blue Growth

EASME/EMFF/2015/1.2.1.7/01/SI2.735914

**Project acronym:** BlueNET  
**Duration:** 1<sup>st</sup> September 2016 – 31<sup>st</sup> August 2018  
**Area:** Adriatic, Ionian, East Med, Black Seas  
**Coordinator:** Maritime Technology Cluster FVG  
martina.rossi@marefvg.it

**Enhance the maritime clusters' capacity to develop networking among SMEs in the Mediterranean, in particular in the area from the Adriatic – Ionian Seas to the Black Sea in order to **diffuse innovation and achieve an added value in relation to the maritime policy** of the target area.**

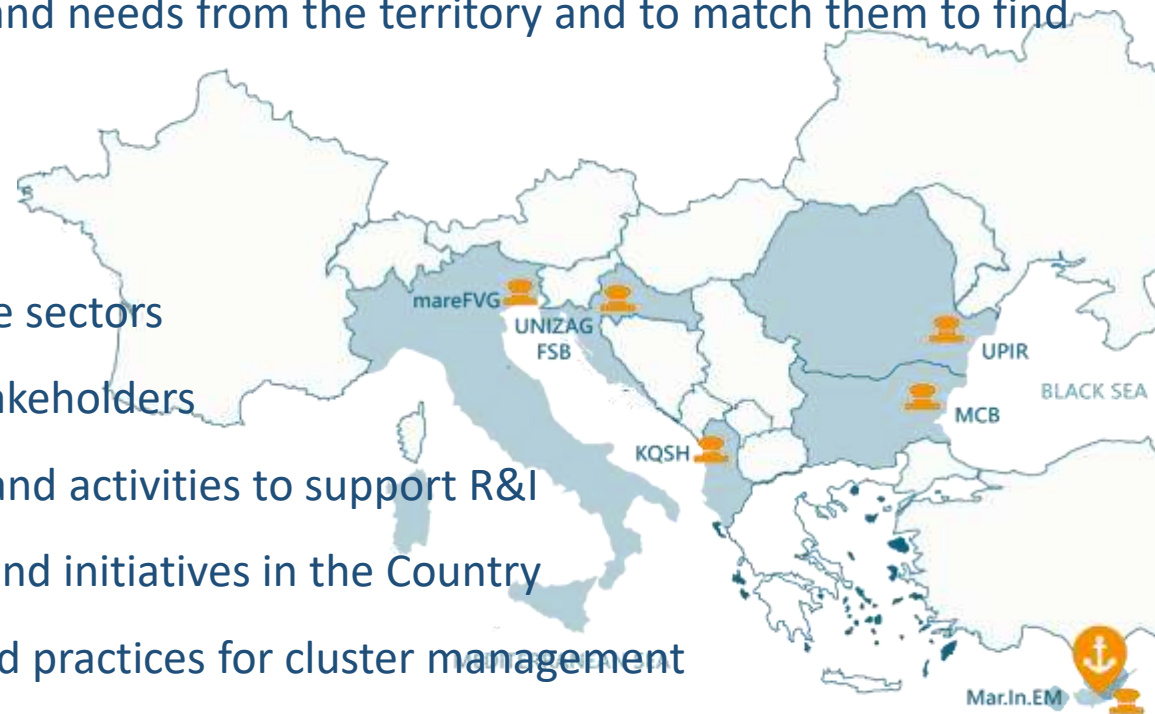

Blue NET project is co-funded by the European Maritime and Fisheries Fund

## *What we have achieved?*

**Assessment of maritime technologies** present in the countries involved in terms of identification of the state of the art of the major sub-specialization in the specific sector. It is the ground for the elaboration of a **common methodology** able to find out features and needs from the territory and to match them to find **joint innovation paths**.

### *Topics*

- Reference maritime sectors
- Identification of stakeholders
- Research projects and activities to support R&I
- Maritime policies and initiatives in the Country
- Initiatives, tools and practices for cluster management

## What next?
